## PRELIMINARY LISTING OF CURRENT AND FORMER MTW ACTIVITIES - 8-24-2016

Under an agreement with HUD's Office of Policy Development and Research, the Urban Institute is in the process of collating the different activities undertaken or being undertaken by existing MTW agencies. This is a preliminary work product that HUD would not normally make public at this point in a research project, but due to the timing of the Research Advisory Committee is making it available to help inform the discussion. It should be assumed that some of this information is not correct and should be treated as information should be verified before using it for any other purpose.

Upon notice from an owner that an exception unit has been vacated, HACSM will provide applicants to the owner from its waitlist. If HACSM is unable to provide a list of applicants to the project owner within 15 business days, or upon owner screening, if it is determined that none of the applicants provided by the PHA wait list meet the owner's selection criteria or the applicants subsequently do not meet HACSM eligibility requirements, HACSM will accept direct referrals from the owner for eligibility determination for that exception unit. As always, the owner will be required to notify HACSM, in writing, of any rejected applicant and the grounds for the rejection.                                         |

This expanded the number of programs available to lowincome households by targeting households up to 80% AMI. In addition, Keene Housing established a \$100,000 asset threshold to its MTW program's eligibility guidelines in 2014.                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

Exemptions can be made for disability related or other issues. The course covers topics including money management and credit, landlord/tenant rights and responsibilities, how to be a good renter, and how to find landlords that will rent to you. Applicants who complete the course receive a certificate of completion that is recognized by many landlords in the community and can substitute for good credit and references in tenant screening policies.                                                                                                                                               |

The courses are designed to provide incoming households with the skills to become successful residents, while establishing clear expectations and minimizing the number of crisis situations over the long term. The curriculum is the product of formal partnerships with other agencies who participate as instructors or advisors in the design and implementation of the courses. Topics include finding the right home/neighborhood, working with landlords, financial literacy, fair housing, safety, upkeep, and sustainability.                                                                                                                                                                            |

The HACSM policy includes the following criteria: 1) If an applicant has assets exceeding \$100,000, or a present ownership interest in a suitable home in which they have a legal right to reside, they are determined to be ineligible for the program, 2) If a participant experiences an increase in assets, such that their assets are currently valued at more than \$100,000, or has (since their last reexamination) gained ownership interest in real property in which the participant has a legal right to reside, the participant would be determined ineligible for continued assistance. This determination is made through the recertification process, annually or biennially, based on the household's regular recertification schedule. |

In practical terms, this activity allows the admission of four elderly applicants from the waiting list before admitting a non-elderly applicant, until such time as an optimal mix of elderly and non-elderly disabled residents is reached for the community. No residents will be required to relocate in order to meet these targets. The agency is not establishing a date by which to achieve the 80/20 target, and will rely solely on the normal resident turnover process to gradually transition the population balance. This activity impacts only two public housing communities, and only 85 units over 3-5 years. The impact will be gradual, at a rate of around 20 units per year for both properties. |

As planned, KCHA's eligibility and tenant selection policies will be modified to require each household to include at least one elderly or disabled individual or a minor/dependent child. Households that do not include one or more of these individuals would not be eligible for participation in KCHA's federally assisted housing programs. The Van Vista Assisted Living program regularly receives inquiries regarding the availability of a unit. If a unit is not immediately available the agency or person making the inquiry continues their search elsewhere as waiting on a list for a unit with assisted living services is not a desirable option. Once a vacancy is anticipated then the next inquiry will be notified and the vacancy filled. The waiver of the waiting list requirement allows for the unique needs of the assisted living population and their need for services                                                                                 |

Households on the public housing transfer list can be issued a voucher if there are no units that meet their needs. Voucher holders may be transferred into a public housing unit if they cannot find a unit on the market that meets their needs.                                                                                                                                                                                                                                                                                                                                       |

These strategies also expedite admission into the program for partner agencies' clients by allowing agencies to maintain their own waiting lists and allowing applicants referred by selected providers to receive the next available unit.                                                                                                                                                                                                                                                                                                                           |

Generally, DHCD intends to require PBV owners to assume and manage these functions; however, exceptions may be made at DHCD's option. Under the new system, applicants contact the owner/manager of a specific development in order to file an application. Application files and the waiting list itself are maintained at the development site. Owner/managers are responsible for contacting and screening applicants who come to the top of the waiting list, collecting all needed information from the applicant, and then forwarding the applicant to the RAA for eligibility determination and processing. |

MTW flexibilities allow the agency to respond to local market conditions and avoid delays related to HUD requirements and approval processes, which ultimately increases the number of affordable units that Seattle Housing Authority is able to develop and preserve in the community.                                                                                                                                                                       |

The results were sobering. KH's portfolio will require almost \$3.8M in modernization over the next three and a half years. In the amended FY2014 Plan, KH created the Affordable Housing Preservation and Modernization Program to address these capital needs. The activity allows KH to address the KH- and KH-affiliate owned portfolio's growing capital needs in a rational way, with a predictable schedule, based on greatest need and economies of scale, rather than in reaction to unpredictable and uncertain grant opportunities.                                                                                                                                                                               |

The affordable housing units may be any bedroom size and will be located within the City of Tacoma. They may be acquired or created by THA to be rented to families at or below 80% AMI. THA intends to allow eligible low-income families to reside in the units, including those that may be receiving Section 8 rental assistance. This activity falls under PIH Notice 2011 45. The broader uses of funds authority under MTW makes this initiative possible as HCV funds can be used to serve a greater number of families residing within the City of Tacoma. These units may house both families who are MTW Housing Choice Voucher participants and families who are not currently receiving other types of rental assistance. |

The units will be operated as public housing for purposes of admissions, continued occupancy, resident rights, and certain other rules. However, for purposes of providing ongoing operating assistance, HANH will use its MTW authority to design and fund a local program to develop replacement public housing units under a local housing assistance payments contract with the owner entity, with operating assistance being utilized in a manner similar to the project-based voucher program. |

LDCHA may leverage, where possible, additional funds from private and public sources (including Low Income Housing Tax Credits, Private Activity Bonds, or other available financing methods). This activity is designed to increase housing choice for low-income households utilizing MTW reserves. The increase for 2015 is reflected in Section II, MTW Households Served, due to a pending acquisition of an existing property.                                                                                                                                                                                                                             |

DHCD's goals for this activity are: leasing higher quality units including incentivizing owners to upgrade existing housing at least one grade level, i.e. from a "C" to a "B" grade, or from a "B" to an "A" grade; increasing the number of units that are accessible to persons with disabilities; expanding the number of units leased in currently underserved neighborhoods; and encouraging new owner participation.                                                                                                                                                                                                                                                                                                                                                                   |

While SAHA may develop new communities with market-rate units in addition to affordable units; this activity does not authorize the use of RHF funds for the development of those market-rate units. It is also important to note that SAHA's flexibility to construct new Section 8/9 units are authorized under the single-fund flexibility only and outcomes are reported in the sources and uses section of this report (Section V). The only units authorized under this activity are units reserved for households with income at or below 80% AMI that are non-Section 8/9. |

Combining program management and policies for both of these types of units (referred to as Streamlined Low Income Housing Program, or SLIHP, units) within the same community makes sense and reduces costs by eliminating redundancies, including duplicative rent reviews and inspections. It also avoids unnecessary disparities between tenants of the two different types of units. Seattle Housing Authority's current implementation of this activity allows for all units subsidized by project-based housing choice vouchers to be operated just like public housing subsidized units in communities that receive both types of subsidy. This streamlined approach includes acceptance of slight differences (generally less than \$1) in rent calculation caused by different data systems of record for vouchers and public housing. |

HUD's TDC and HCC cost limit reflect an industry average. HANH has identified the need to use products that are of a higher level of quality so that the organization can develop its costs limits to:reduce maintenance cost; increase durability; enhance the quality of life of the residents; and remain marketable and competitive in the local rental market                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Housing assistance payments are utilized to assist with a mortgage payment rather than as a rental payment. Incentives to purchase a foreclosed home are also program components. Waivers were enacted to modify the eligibility requirements for the program related to the minimum monetary threshold for savings accounts as well as implement the incentives for purchasing forclosed homes. |

Any property that fails an initial or biennial inspection is held to an annual inspection schedule until such time that all units pass an annual inspection.                                                                                                                                                                                                                                                                                                                   |

Staff determined that costly software modifications would be necessary to track housekeeping ratings, making implementation of this activity cost prohibitive.                                                                                                                                                                                                                                                                                                                                                    |

The number required may vary depending on the development configuration and number of PBV units. AHFC would like to base its initial and annual inspection requirement on the needs of each individual development. AHFC would reserve the right to inspect any time it suspects that the owner is not in compliance with Housing Quality Standards (HQS) or if the fail rate reaches 20 percent at the development. AHFC will continue to investigate tenant complaints regarding the condition of a PBV unit. AHFC will also continue to conduct the initial property and unit inspections before entering into a HAP Contract for the development. |

If the unit does not pass on the biennial first inspection it will return to the annual inspection schedule. The unit must also have the same resident for 36 months. Under the new policy, tenant-based units that pass an annual inspection on the first attempt are placed on a biennial inspection cycle. In subsequent years, units must continue to pass on the first inspection attempt to remain on a biennial inspection cycle. If deemed necessary, DHCD may consider other related factors, including but not limited to the severity of the repair. DHCD also reserves the right to change any units' inspection frequency based upon management discretion.                                                                                                                                                                                               |

Specific policy changes include: (1) permitting the release of HAP payments when a unit fails an HQS inspection due to minor deficiencies (initially implemented in 2004 to cover annual HQS inspections and modified in 2007 to include inspections completed at initial move-in); (2) clustering inspections to reduce repeat trips to the same neighborhood or building by allowing annual inspections to be completed from eight to 20 months after initial inspection and aligning inspection timing of multiple units in the same geographic location; and (3) allowing our staff to self-inspect KCHA-owned units rather than require inspection by a third party. |

The FCRHA proposed the following policy changes: The applicant/participant family will receive information about UPCS and will be required to certify that they understand these standards. All units will undergo their last annual inspection (subject to approval by FCRHA inspectors) and start the biennial inspection process in the first MTW year. In the year between biennial inspections, tenants will self-certify that the unit continues to meet UPCS standards or request an inspection. Public Housing applicants and participants will have an opportunity to receive a rebate of their rent, by attending UPCS training, passing its most recent inspection and receiving a good housekeeping certification. Participants that have a unit that fails UPCS through their fault will have their unit inspected a second time within the year by the property manager to ensure compliance with UPCS. |

All units will be inspected at least every other year. This initiative will also allow inspections to coincide with the next annual reexamination date rather than HUD's interpretation that inspections be conducted within 365 days of the previous inspection.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

Units would continue to be physically inspected annually, unless HHA designated the unit as "low-risk" per the criteria listed below. Units designated as "low-risk" will be moved to a biennial schedule for physical inspections. In the place of the physical inspection, on the off year landlords of "low-risk" units would be required to self-certify that the units meet HQS standards.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

These guidelines will include consistent HQS inspection passes, completion of online and in-person trainings for owners and property managers, quality and attractiveness of the property, and commitment to leasing to more than one HCV voucher holder. Incentives that will be provided to member landlords include inspection incentives such as priority inspection scheduling, biennial inspections, and acceptance of prior inspections conducted less than 60 days ago for vacated units. Other incentives include vacancy payments of no more than two months' HAP payments for most recent tenancy when the landlord commits to leasing to another voucher holder and priority placement on HACP's property listing web page. |

This activity unifies Section 8 and Public Housing inspection standards. The intent is to raise lower standards to a higher, uniform level. It is anticipated that UPCS (public housing) would serve as model for most elements, but some may be derived from HQS (section 8). This activity is on hold since FY2014, pending results of HUD tests at other PHAs. |

For this reason, KH does not test any unit for rent reasonableness for participants nor negotiate rents or hold a contract with owners.                                                                                                                                            |

In our original Plan, KH eliminated the 40% affordability rule for its MTW programs. Instead households are counseled during the issuance briefing on acceptable rent burdens relative to rent reasonableness and the consequences of choosing a unit that creates a high rent burden. Once a unit is chosen, KH calculates the household's proposed rent burden and if it exceeds 40%, KH allows the household the opportunity to demonstrate that they can manage the higher rent burden. Households who choose a high rent burden are not eligible for Safety Net unless a change in circumstances causes their rent burden to exceed their rent burden at lease-up.                                                                                                                                            |

With the implementation of 2014-1 Reasonable Rent and Family Self-Sufficiency Initiative, this activity was slightly modified to account for Step Program families that would be transitioning to a fixed HAP subsidy. Once on a fixed subsidy amount, these families will no longer be subject to a maximum family contribution if they decide to move.                                                                                                                                                                                                                                                                                                                                                                                                                             |

Our goal is to allow for maximum resident choice in the voucher program and to substantially increase the participant's ability to understand the program and lease up more quickly. THA has observed that the voucher program has been extremely confusing for participants. Despite using multiple tools to simplify the process, many participants leave the voucher briefing unsure about how to apply the information as they begin their search. As a result, the number of calls THA fields during the lease up process is high. THA wants participants to be confident about their choices in the housing market.                                                                                                                                                                                                                                  |

AHFC proposes the following definitions as part of its rent reform activity. 1. Disabled or Elderly Family is defined as 100 percent of adult household members are either a person with a disability (as defined in 24 CFR 5.403) or 62 years of age or older. These families may include a live-in aide (as defined in 24 CFR 5.403), minors, or full-time students. 2. Full-Time Student is defined as a dependent adult under the age of 24 who is enrolled as a student at an institution of higher education and meets the school's definition of full-time enrollment. AHFC will continue to disregard any income earned by an individual while full time student status is maintained. 3. Work-Able Family is defined as any household that does not meet the definition of an elderly/disabled family. |

AHFC implemented its new Public Housing Program Residential Lease Agreement effective January 1, 2012 with Numbered Memo 12-03. The nonpayment of rent period was shortened to seven days to match the Alaska LandlordTenant Act. The new lease was offered to each family at their annual anniversary appointment.                                                                                                                                                                                                                                                                                                                                  |

In order to reach the goal of 100% direct deposit utilization, all new owners are required to enter in Direct Deposit Agreements starting in FY 2010. Implementation of this initiative rewards landlords with timely and accurate HAP payments. This increased efficiency has eased HANH's burden to accurately administer 1,370 HAP payments to landlords. This initiative was also expected to minimize landlord complaints on non-payment of HAP payments and it has reduced the number of paper checks processed monthly which has in turn reduced the cost of administrating the HCV program. |

This MTW-modified policy allows the family to remain voluntarily in the current unit, avoiding the costs and disruption of moving. This initiative reduces the number of processed annual moves, increasing housing choice among these families while also reducing our administrative and HAP expenses.                                                                                                                                                                                                                                                              |

These families chose to not be transitioned into the MTW Program, allowing them to be excluded from the rent reform provisions enforced on all MTW Program participants. In 2009 our agency concluded that all able body participants should strive to become self-sufficient regardless of when they had been enrolled in one of our programs; therefore the remaining 73 families were to be transitioned into our MTW Program. This activity administers the same rental assistance model outlined in Activity One, with the objective of promoting administrative cost savings and self-sufficiency for its participants. This activity was approved in 2009-2010 and implemented in 2009. |

The HACSM policies include the following: o The individual becoming the new HOH must be in the household for at least the previous 12 consecutive months, and o At the time of the HOH change, the household would join the time-limited MTW Self-Sufficiency program (MTW On-going Activity #1). However, if household is already enrolled in the time-limited MTW Self-Sufficiency program, the remaining household members would only be eligible for the remaining term, not an additional term.                                                                                                                                                         |

Program (Caring About Resident Economic Self-Sufficiency) introduced the concept of term limits into the public housing and Section 8 programs administered by HANH. All residents, except those exempt under the program requirements will be subject to a 72-month time limit on receiving rental assistance. The second component of the program is that certain individuals will be required to participate in an extensive 24- month case management supportive program designed to overcome barriers to becoming self-sufficient. The returning residents are exempt but can voluntarily participate in the program. The agency will use its MTW flexibility to fund the required social service component of this program. At the end of the 72-month limit receiving rental assistance, the rent will be adjusted to Flat rent less prorated assistance for household members who are seniors, 18 years of age or under, disabled or otherwise exempt, as described in the plan. |

Working households who choose to apply under this preference would receive five years of housing assistance, with a two-year extension if needed based on hardship. Elderly or disabled are eligible for the optional working household preference regardless of work status.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Participants who are able to work (i.e., not considered elderly or disabled, or are a parent of a child under age 1) are expected to work or attend an approved school program, or they will lose a month of eligibility of HCV assistance. Each individual is granted 36 months of unemployment/nonparticipation in education. When an individual reaches the end of their 36 months, they will be considered ineligible for housing assistance for no less than one year, and all rent calculations for the household will be calculated on a pro-ration basis similar to the treatment given to other households with ineligible members.                                                                                                                                                    |

Through this activity, the LHA has the authority to: a) Impose a minimum earned income calculation for families residing at self-sufficiency units regardless of employment status; b) Modify the Definition of Work Activity used to determine whether or not a family is compliant with the self-sufficiency requirements.                                                                                                                                                                                                                                                                                                                                       |

Failure to meet the work requirement is a major program breach. Exempt households may elect to participate in the MTW rent structure if they meet the work requirement through employment income. Failure to meet the work requirement results in a lease violation. If not corrected, tenant rent goes to full market rate for the unit.                                                                                                                                                                                                                                                                                                                                                       |

Due to the downturn in the national economy, the work requirement was reduced from 30 hours to 20 hours. This change was made in FY 2010. In 2014, LMHA requested and HUD granted the authority to define "economic self-sufficiency" as the ability to obtain and maintain suitable employment. "Employment" means the household must be receiving earned income. "Suitable" is defined as annual earned income equal to or exceeding minimum wage times 2,000 hours, which is equal to \$14,500 (as of July 23, 2013, minimum wage is \$7.25 x 2,000 = \$14,500). This is the minimum income requirement for a family to participate in the Housing Choice Voucher Homeownership program. |

All custom forms are forwarded to the MTW coordinator for review. The following forms were created during this fiscal year to coincide with rent reform activities: AHFC MTW Voucher (form V765) – based on the HUD-52646, removed the statement regarding family contribution at 30 percent of adjusted monthly income. Authorization for the Release of Information/Privacy Act Notice (form VF200EIV) – based on the HUD-9886, extends the expiration time from 15 months to 60 months. Will be used only for public housing and housing choice voucher clients. |

Effective July 1, 2010, HACSM received HUD approval to eliminate the requirement of executing a new HAP contract with the owner in such instances as described above. Instead, upon receipt of a written notification from the tenant or the owner detailing the changes, HACSM will review the contract rent to ensure its rent reasonableness, adjust the tenant portion of rent and HAP payment if applicable, and confirm the changes by issuing a rent change notice. |

The LBS program would use a blend of MTW Section 8 and public housing funds to subsidize units reserved for families earning 80 percent or below of area median income. The units may be new, rehabilitated, or existing housing. The activity is meant to increase the number of households served and to bring public housing units off of the shelf.                                                                                                                                                                                                                                                                                                                 |

Public housing operating subsidy alone is often insufficient to support bringing these units back to properties. The LBS program uses a blend of MTW Section 8 and public housing operating funds to subsidize units reserved for families earning 80 percent or below of area median income. Additionally, the ability to create local preferences, and admission and continued occupancy policies and procedures allows Home Forward to manage the units to provide similar protections as public housing and also adapt the rules for efficiency and local needs. This supports the objective to increase efficiencies in Federal expenditures. |

Each year, Seattle Housing Authority assesses potential investments and makes a decision about whether this MTW flexibility will be needed. The agency does not anticipate using alternate investment policies in 2015. However, Seattle Housing Authority will continue to revisit its investment strategies annually in consideration of both the agency's financial plans and available investment opportunities.                                                                                                                                   |

The FRC selects families to receive the subsidy when they determine that the assistance is needed in order to prevent a child's family from having to relocate due to financial reasons. The subsidy allows the family to remain in the school's district providing needed stability for the student.                                                                                                                                                                                                                                   |

VHA will fund up to \$200,000 annually for this activity. The intent of this project is to provide families in Clark County the opportunity to manage short-term budget shortfalls by assisting them with time-limited housing assistance administered through partner agencies. VHA plans to partner with up to four local agencies.                                                                                                                                                                                                                                                                                                                                                                                                                    |

THA has never terminated any family from its programs for lack of funding. It does not wish to start. Specifically, THA would amend the Insufficient Funding portion of its Administrative Plan to allow for immediate MTW rent reform. THA would also amend its Administrative Plan to reflect the methodology it would use to determine insufficient funding. Based on the adopted methodology, THA would conduct an impact analysis to determine the necessary program cuts. THA believes that increased housing stability will show in better school performance THA has integrated two key components as a part of McCarver Elementary School initiative: (1) condition rental assistance on the parents' commitment to their children's education and their cooperation with the school. THA has provided support through community partners to help parents do this; (2) THA has also asked the School District to complement our investment of housing dollars into McCarver School with its own reciprocal investment of resources and reform to make McCarver as excellent as leading edge school practices can make it. |

Vouchers were to be awarded to service partners for a special purpose or a special program. The service partners would be responsible for designing the program. This includes selecting households for the program, establishing program guidelines and eligibility criteria, length of time a household would be eligible for a voucher, level of assistance provided to each household, etc. THA would then oversee the administration of these vouchers through an annual reporting and/or audit process.                                                                                                                                                                                                                                                                                               |

THA has committed MTW dollars to be awarded through the locally established funding cycle. This allows THA to "pool" resources with the local jurisdiction to meet the local needs as prioritized through city and or county planning process. The pooling of resources has allowed THA to serve homeless and "at risk" of being homeless adults, unaccompanied youth, and families in the Tacoma/Pierce County area.                                                                                                                                                                                                                                                                                                    |

This local, non-traditional rent assistance program merges two past single-fund MTW activities: Short Term Rent Assistance and Agency Based Assistance. This program offers time-limited rent assistance, paired with services, to help families access and/or retain stable housing. While the Housing Choice Voucher and public housing programs provide permanent subsidies in order to ensure long-term affordability for low-income families, the focus of Program Based Assistance is helping families achieve stability. These households will likely remain rent-burdened, but with services available to help families address other challenges in their lives, many will be able to avoid homelessness and remain permanently housed. |

The first is the sponsor-based Coming Up program, developed in partnership with Auburn Youth Resources and Valley Cities Counseling and Consultation, which provides sponsorbased rental assistance and supportive services to 30 formerly homeless young adults in south King County. The second program is a project-based assistance program operated in partnership with Friends of Youth and Imagine Housing that serves 10 homeless young adults at a time on the County's eastside. Together with these service providers KCHA will establish guidelines regarding the length of time that rental assistance will be available for any participating youth or young adult. The program blends appropriate support services together with time-limited rental housing assistance to encourage participants to become increasingly self-sufficient and prepared to enter private market housing upon graduation. |

Day Spring, a faith-based charitable organization, provides residential and supportive services to adults with developmental disabilities who want the opportunity to live independently in a supportive community setting. Residents who receive voucher assistance must meet the Section 8 program income requirements; however, under the initiative, not all of the residential units will be subject to typical HUD Housing Quality Standards and rent reasonableness requirements                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

This initiative will provide a lower cost subsidy than a conventional voucher. Participants will be offered units in privately assisted housing developments where the rental costs are lower (generally by 25% or more) than current HUD published FMRs but still not affordable to very-low and extremely low-income households. These would generally be units in LIHTC, 236, and certain state funded developments, for example, where rents are generally set at or below 60% of AMI.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Existing participants and/or voucher holders moving into these areas will be provided with case management support both before and after the move through the participating regional administering agencies. Other incentives may be provided based on family needs and budget availability such as transportation assistance, child care referrals, training stipends, etc. Families will be encouraged or required to develop a family plan to access opportunities in their new neighborhoods with a special focus on positive outcome educational programs for children and available jobs for adults. Where appropriate, participants will also be encouraged to participate in the Family Self Sufficiency Program. |

AHFC will continue to examine each market on an annual basis to determine if the payment standard is appropriate. AHFC will also ensure that it establishes a payment standard that reflects, not leads, the market. As one of its tools, staff will use an annual, independent study conducted by AHFC's Planning and Program Development Department in cooperation with the State of Alaska Department of Labor. This study surveys Alaska's communities and landlords about its housing markets including vacancy rates, market conditions, rentals, and utilities. Staff will also continue to collect its own survey data on rentals in the local market. |

This activity will allow SAHA to apply the lower payment standards at each participant's next reexamination (Move, Interim and/or Annual reexaminations). If the participant's rent portion increases as a result of applying the new payment standard, SAHA will provide the participant a 30-day notice of rental increase.                                                                                                                                                                                                                                                                                   |

Families can elect to take on the additional burden above the payment standard if landlords do not elect to reduce their rent. Or, the family can use the mobility feature of the voucher to move to a more affordable unit in line with their self-sufficiency goals. For FY 2014 reduced payment standards will not apply to two-bedroom units.                                                                                                                                                                                            |

In order to ensure that payment standards are sufficient to allow Housing Choice Voucher participants reasonable choice in neighborhoods, Home Forward is proposing to broaden its "base range," providing the ability to establish payment standards between 80% and 120% of the Fair Market Rents without prior HUD approval.                                                                                                                                                                                                                                                                                            |

Those factors are location, size (number of bedrooms and bathrooms), and type of unit. To conduct the comparability analysis, both total rent and tenant-paid utilities (based upon the current HCVP utility allowances) of at least three (3) comparable properties are used to establish the reasonable rent of the subject (assisted) property.                                                                                                                                                                                                                                                                                                                                                                                    |

This activity allows HACSB to establish a local payment standard schedule that accurately reflects the varying rental submarkets that exist across our vast County. With the flexibility provided by this activity, HACSB does not use the HUD-published Fair Market Rents to establish payment standards for its jurisdiction. Instead, HACSB conducts a study of local market rents and establishes local payment standards for each of the nine submarkets that it has designated within its jurisdiction based upon the results of the market study. This activity has increased the housing choice for our families as they are now able to move to regions with better job prospects, transportation and schools, most of them being lower poverty areas. |

The diversity of HACC's jurisdiction results in real estate markets that demand rent schedules far beyond those of the HUD published Fair Market Rents. Utilizing a third party market research firm, HACC identified that Champaign County has nine (9) Primary Real Estate Sub-Markets. To facilitate administration of Local Payment Standards, HACC identified boundaries for each PRESM that include the entire Village, Town or Township in rural areas of the County and complete census tracts in the urban areas of the County.                                                                                                                                                                                |

In FY 2005, KCHA began applying new payment standards at the time of a resident's next annual review. In FY 2007, KCHA expanded this initiative to allow approval of payment standards of up to 120 percent of the fair market rent (FMR) without HUD approval. In early FY 2008, KCHA decoupled the payment standards from HUD's FMR calculations entirely so that we could be responsive to the range of rents in Puget Sound's submarkets.                                                                                                                                                                                                                         |

It was anticipated that some families would choose to port out just to avoid the work requirements and other expectations of the MTW program.  Portability is allowed for specific reasons as listed above. Families are given information about our responsible portability policy, and it is recognized that once people are aware of the policy, few formal requests are made.                                                 |

LMHA has established special referral programs with two housing and support services providers at three facilities. Families with specific needs often face multiple barriers to achieving their self-sufficiency goals. LMHA's special referral MTW Housing Choice Voucher programs are a strong incentive for participants to enroll and complete the program as the current waitlist for HCV vouchers includes over 15,700 applicants. It also increases housing choice for low-income families interested in these programs. |

Building on the successes of similar initiatives at other MTW Agencies, the program more effectively uses the subsidy provided by the Enhanced Voucher program (Section 8(t) of the U.S. Housing Act) to preserve properties that would otherwise either continue to suffer from inadequate funding, or convert to market rate. It does this by providing property owners the option to opt-out of an expiring PBRA contract and convert to a PBV HAP contract with KH.                                                                                                                                                          |

If selected an owner would receive funds from the VHA to offset the amount the project would require to reduce apartment rents to reach the affordable level. To be considered affordable the bought-down gross rents will be calculated by taking 33% of an income equal to 45% of AMI assuming 1.5 persons per bedroom.                                                                                                         |

Subsequently a number of MTW policies relating to the PBV program were incorporated into specific MTW Activities or as standalone MTW activities. This activity consolidates and re-states many of those policies in order to clarify that they apply to all PBV projects funded under MTW. Various exemptions listed: waiver of competitive bidding process, requirement for a move voucher after one year waived; selection based on referrals rather than waiting lists; up to 100% of units in development can be PBV; notes ongoing HQS and rent-reasonableness deteriminations as a part of 2011-05                                                                                                                                                                                                                                                                                              |

This complex, Tule Vista, was built in conjunction with the City of Tulare Redevelopment Agency. HATC was authorized to undertake such initiative by its Moving-to-Work Agreement, Attachment C, Section (D)(1)(e) and D (7). These regulations authorize waiving the requirements for a Request for Proposal by an agency planning to project base and Section 8 vouchers and review of proposals for various owners. They also, authorize waiving the limitation on only allowing 25% of units in a complex to be project based. These subsidies were essential in order to make the project financially viable.                                                                                                                                                                                      |

They are as follows: • THA removed the cap on project based vouchers for its own developments. That will allow THA to finance more developments in the future. • THA waived the mobility option that allows PBV tenants to automatically receive a tenant-based voucher after one year of occupancy. • THA established a reasonable competitive process and contract terms, including the length of the contract, for project-basing HCV assistance at units owned by for-profit or non-profit entities. Units must meet existing HQS or any standard developed by THA and approved by HUD pursuant to the requirements of this Restated Agreement. • THA began conducting Housing Quality Standards (HQS) inspections on units it owns or has interest in. The changes have allowed THA to streamline many parts of the project based program that were inefficient or unfair to those on the waitlist. |

The FCRHA owns and operates 209 Public Housing units that are considered "scattered" or within properties not wholly-owned by the FCRHA. Generally these are townhouse units that operate within homeownership association covenants. The FCRHA proposed the following: Consider a plan to dispose of scattered-site Public Housing units to an FCRHA-affiliated entity, and · Convert those units to project-based Section 8 assistance to allow for more efficient management and possible designation for special populations occupancy by the elderly or persons with disabilities. |

Second, KCHA partners with nonprofit community service providers to create housing targeted to special needs populations, opening new housing opportunities for chronically homeless, mentally ill or disabled individuals, and homeless families with children who traditionally have not been served through our mainstream Public Housing and Section 8 programs. KCHA is also coordinating with county government and suburban jurisdictions to underwrite a pipeline of new affordable housing developed by local nonprofit housing providers.   |

The purpose is to provide cash flow to enable HANH to borrow private funds for the purpose of rehabilitating aging developments in HANH's portfolio. HANH also seeks to waive the requirement of one-year tenancy which will allow participants greater flexibility in housing options. |

Self employed participants may declare expenses up to 30 percent of their gross income, using a tax return or profit-loss statement, with no further validation of deductions required. Participants with higher expenses may choose to select a 30 percent expense deduction or claim a higher amount and go through the regular full verification process within the required timeframe.                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Additionally, decrease of income interims will be granted only if the loss of income is through no fault of the family, the decreased income results in a decrease to the rent portion greater than 20 percent, the decrease is not due to a sanction on public assistance income, and the famly provides verification of eligibility or ineligibility for unemployment benefits if the reduced income is due to loss of employment. Update: The policy applies to work-able families as defined under Path to Success. The activity utilizes the authority to implement an interim certification protocol differing from current mandates, thus allowing for locally driven policies concerning income change interims for families categorized as "Work-Able". |

The verification form used by HACSB was modified in FY 2011 to include Upfront Income Verification using HUD's Enterprise Income Verification (EIV) as the highest standard of verification. The secondary standard is documents observed to be satisfactory to verify income and source provided by the household. If additional verification is required, a third party written verification is requested and lastly we use third party oral as the lowest ranking of income verification. This activity has simplified the process for our families and the housing staff, which enables HACSB to improve this process.                                                                                                |

This Activity is authorized by the MTW flexibility to establish alternate definitions of income, and to encourage work. This Activity was designed to not penalize the entire household for the fluctuations in employment of young adult children. Additionally it reduces administrative cost by eliminating the need for frequent rent recalculations and encourages work through program enforcement for this population. |

MDRC, a nonprofit and nonpartisan education and social policy research organization, is conducting the Study on behalf of HUD. The Study sets forth alternative rent calculation and recertification strategies that will be implemented at several public housing authorities across the country in order to fully test the policies nationally. |

Examples of 100% excluded income are food stamps, income from minors, and foster care payments. HUD regulation 24 CFR 5.609 (c) provides a complete list of all income sources that HUD specifies to be excluded when calculating a family's annual income. Because this income is excluded from the income calculation process, it does not affect the amount of a family's rental assistance.                                                            |

In FY 2014 Keene Housing will implement its Medical Deduction Threshold initiative. The initiative will align our threshold with the Internal Revenue Service's, by increasing the 23 — Proposed MTW Activities threshold for unreimbursed medical expenses to 7.5% of gross income.Increasing the medical expense threshold will reduce the hidden costs of indirectly subsidizing residents' medical expenses, while still providing an adequate safety net for those families with unexpected medical costs. |

This policy allowed residents the opportunity to establish and increase assets without being discouraged by a corresponding increase in rent. KH continues calculating imputed value for all assets in the income calculation when a household's total net assets exceed \$50,000.                                                                                                                                                             |

Households who believed their unreimbursed medical expenses were above the 3% medical deduction threshold could request that KH calculate their medical deduction instead of applying the standard deduction. Since the process of verifying and calculating medical deductions can often be administratively burdensome, it was believed using a flat deduction would provide administrative savings to offset any additional HAP loss that might occur.                                                                                |

Any change in voucher size, payment standard and subsidy calculation will be effective 120 days after the interim review; Home Forward will use actual past income to determine annual income for participant families. However, at a household's request, or if twelve consecutive months of verifiable income information are not available in the Enterprise Income Verification (EIV) system and/or the State of Oregon's income verification screen, or if there is a substantial difference in the family's declared income and EIV data, we will use projected future income and follow current verification procedures to establish annual income; When the value of an asset is used to determine eligibility, we will accept families' self-certification of assets and income from assets that do not exceed \$5,000 in net value. For families whose market value of their assets is greater than \$50,000, asset verification is subject to standard HUD verification requirements. HHA determines asset value using market, rather than cash value. (2) Calculation of Asset Income- When determining asset income, HHA uses the market value of the asset and imputes asset income using HHA's established passbook savings rate. (3) Exclusion of Asset Income- All asset income below \$500 are excluded.                                                                                                                                                                                                                                                                                                                       |

Participants and residents may still request an interim reexamination at any time but will also have to provide appropriate verification of the change that they are reporting prior to any resulting change in tenant rent becoming effective. If the request and the verification is received before the 15th of the month, any resulting change in tenant rent will be effective the first of the following month.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

When this activity was initially approved in FY2008, participants only qualified for biennial inspections if they had resided in the same unit for a minimum of three years and had passed two consecutive annual inspections on the first visit. As we monitored the success of the activity, we continued to expand it to more households and in our FY2013 plan year we implemented the biennial schedule for all participants                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

Rather than requiring full Housing Quality Standards (HQS) inspections, Home Forward requires that these units meet the habitability standards, unit inspection requirements, and lead-based paint visual assessment requirements currently required by the US Department of Housing and Urban Development's Homelessness Prevention and Rapid Re-Housing Program. Staff from jurisdictional and community providers are able to arrange for and conduct required inspections themselves, in conjunction with other required visits to the assisted units.                                                                                                                                                                                                                                                                                                                                                                               |

Through this activity the LHA is recertifying households at Connie Griffith once every three years instead of annually. Between triennial recertifications, whenever the federal government adjusts benefits paid through fixed-income programs like Social Security and SSI, the LHA reserves the right to adjust resident household incomes and rent payments accordingly. The success of that initiative prompted staff to request authority to expand the activity to HCV elderly and disabled families on a fixed income. As the vast majority of elderly and disabled households in the HCV programs rely on fixed-income sources, there is little variation in household income on an annual basis. In reference to this activity, households on a fixed income are defined as any household with any amount of income from a fixed income source like Social Security, SSDI, or pension income. |

For Public Housing, each year 50% of the elderly and disabled families age 55+ residing in Public Housing receive a full reexamination of eligibility on the anniversary of their lease-up date. For the HCV program, elderly and disabled families age 55+ in the Housing Choice Voucher program are required to appear for a full reexamination every other odd numbered calendar year (referred to as an "ON" year). In an even numbered year (referred to as an "OFF" year) HCV families are required to complete a minirecertification packet and mail it to the Agency.                                                                                                                                                                                                                                     |

The documentation requirements for the recertification process are time consuming and burdensome, and generally, tenant rents do not vary greatly from year to year.  Zero-income households and households on minimum rent will continue to be subject to annual or more frequent recertification requirements. Additionally, MTW households will remain subject to all interim reexamination policies outlined in HHA's Administrative Plan and/or ACOP. HHA will continue to allow clients to request interim rent decreases when income changes, and clients will not be required to report changes between regular recertifications unless for a reason required in HHA's Administrative Plan and/or ACOP, i.e. change in household composition. |

This activity allows HACSB to conduct recertifications of households biennially for all households in both Public Housing and in Housing Choice Voucher programs. The expanded initiative was implemented in 2012 with approximately half the households assigned to a biennial schedule. The second half of the population was assigned to the biennial schedule in 2013.                                                                                                                                                                                                                                                                                                                                                                                                           |

Families who report zero income will be required to report income changes at their quarterly certification and rents will be changed accordingly. Income decrease: LHA will not lower rent for payments due to a temporary loss of income of one month (30 days) or less duration. If a family member has reduced or terminated employment income, LHA will make the rent decrease 90 days after the decrease in income occurred or after all verifications are received to redetermine eligibility, whichever is the latest.                                                                                                                                                                                               |

This activity's main objective is to provide a work incentive for all families and to reduce the burden on staff and families by reducing the frequency of income reexaminations. The FCRHA proposed the following changes:  Reexaminations will be reduced from annually to once every two years. Families that claim to have zero income will continue to meet with FCRHA staff regularly. Reexaminations for families on fixed incomes (only SSI, SSDI, SS, or pensions, or any combination of those sources) will be conducted every three years. Interim increases—that is, increases in income between annual reexaminations—will be disregarded until the next scheduled biennial or triennial reexamination. Interim decreases, a reported decrease in income, will be limited to one during a calendar year and no interim decreases during the first six months after initial occupancy. |

This supporting activity proposes eliminating utility reimbursement payments for the Voucher and Public Housing programs. Families that may need an adjustment of their subsidy due to unusual or excessive utility requirements may ask for a hardship. See the Administrative Section for a discussion of the hardship policy.                                                                                                                                                                                                                                                                                                                                                                                                           |

In these cases the utility allowance used will be based on the lesser of the unit bedroom size or voucher bedroom size. Currently a significant number of HCV households choose larger units. When they do, and the gross rent is still below the payment standard for their voucher size, the VHA pays a higher amount of housing assistance due to the HCV program requirement that the utility allowance for the unit bedroom size be used in the calculation of assistance.                                                                                                                                                                                                                                                                     |

The Housing Authority has calculated the average utility allowance currently provided to housing choice voucher and public housing program participants, and revised allowances. The revision provides each household responsible for tenant supplied utilities with the average allowance based upon unit bedroom size. Households have a more simplified explanation of utility allowance benefits and the Housing Authority staff now selects an allowance based only on unit size instead of determining individual allowances for every unit leased. |

The simplified schedule reduces administrative costs associated with the traditional method of applying a Utility Allowance Schedule. Specifically, the activity will allow the HCV department to be more cost effective by reducing staff time spent on calculating multiple utility schedules for 6 different structure types plus various utility types such as gas, electric or propane.                                                                    |

Previously, the public housing utility allowance process required Home Forward to conduct engineering surveys to determine energy consumption, which was cumbersome and costly. Additionally, RHA currently has a simplified utility allowance schedule for designated highly energy efficient multifamily complexes. RHA will simplify the current HCV utility allowances for all other units by creating a flat utility allowance based on three structure types and on authorized voucher bedroom size. This is a significant change from over forty variables and paying utility allowances based on bedroom size rather than voucher size.                                                     |

However, these same families were eligible for and receiving utility reimbursement checks with the intention to pay off their entire month's utility bill.                                                                                                                                        |

This approach produces administrative savings through simplified utility cost methodologies that can be universally applied to Section 8 and Public Housing units, ensuring equal treatment of participants in both programs.                                                                                                                                                                                                                                                                                                                                                                                                                   |

Upon reaching Step 3, participating households are no longer subject to full recertifications. Instead, KH conducts Enterprise Income Verification (EIV) systems check at least annually on all households to test if the family has met the \$0 HAP threshold and for processing recertifications. As all Stepped Subsidy households also participate in RSR and are required to attend quarterly meetings with their RSC, income and employment data is collected quarterly. This data is used to ensure program eligibility and to measure each household's progress towards their 3-Year Goal Action Plan. In addition, RSCs collect new Authorization for Release of Information/Privacy Act Notice (HUD form 9886) when the existing 9886 is expiring. |

Instead KH relies on the published Cost of Living Adjustment (COLA) and Enterprise Income Verification (EIV) system to calculate each household's income. KH notifies households via mail of their new tenant share and subsidy amount. Included with this notice is the standard Authorization for Release of Information/Privacy Act Notice (HUD form 9886). As in the traditional PBV program, subsidy will be calculated based upon 30% of a household's adjusted annual income. However, the activity alters the current methodology for calculating rent and recertification schedule with streamlined strategies                                                                                                                                                                                                                                                                           |

The model eliminates deductions and streamlines allowances. Path to Success only applies to families considered Work-Able. Families defined as Elderly/Disabled receive streamlining measures and are not subject to Path to Success. The activity was reproposed in the Fiscal Year 2014 Plan to include a local portability policy. The local portability policy component of the activity was implemented effective November 1, 2013. Update: The standard HCV calculation may be used in PBV complexes servicing special needs populations. |

For half of the families, the rent will be calculated as a standard HCV voucher. For the other half, rents are set in advance and do not change based on income; rents will only change if the required bedroom size of the unit changes and the family moves. UNR will be tracking these families as well to identify the differences between the two groups. 92 vouchers have been issued for this Activity.                                                                                                    |

It was HACSM's intent that implementing the new activities would create a more transparent process for participants, a streamlined and more efficient practice for HACSM, and overall improvement in the accuracy of the calculations. In July 2011, HACSM modified the activities resulting in the following: · Asset Calculations o HACSM established a minimum threshold of \$50,000 in assets before any interest would be included or calculated when determining the household's annual adjusted income o If the household met, or exceeded the \$50,000 threshold, HACSM will include the actual interest earned in determining the household's annual adjusted income · Eliminate the Earned Income Disallowance (EID) o In conjunction with the establishment of the biennial recertification schedule, HACSM eliminated the calculation of the EID, as it was no longer effective in supporting disabled family's ability to increase their savings. The biennial recertification schedule and HACSM's interim policy provided greater benefit to the family overall. |

As part of the HUD-mandated EID calculation, any family in the Public Housing program, and any family in the HCV program that included a member(s) with disabilities, was eligible for EID when an unemployed or underemployed family member obtained a job or increased their wages. The resulting income increase was fully excluded for 12 months and 50 percent excluded for an additional 12 months. In FY 2011, only 52 families in the FCRHA's Public Housing and Housing Choice Voucher programs benefited from the EID calculation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

HHA will accomplish this by offering an incremental income disregard for all clients who have graduated from an approved professional development program and who have obtained employment. This disregard will be open to any HHA Public Housing or HCV client who has not had earned income for a period greater than one year and who is interested in entering the workforce. All clients must meet eligibility requirements of the partner program they choose, which in some cases may limit participation to clients who are currently unemployed. HHA will divide clients into a control and treatment group for purposes of its rent reform study. The control group will not be eligible for this income disregard.                                                                                                                                                                                                                                             |

These policy changes include: o Using the Payment Standard in effect at the effective date of the regular recertification regardless of any change in the Payment Standard. o Using the Utility Allowance and Payment Standard in effect at the effective date of the last regular recertification to calculate rents at interim recertifications. o Discontinuing the standard Earned Income Disregard and replacing it with a similar disallowance that is more straightforward for staff to administer. o Excluding all Full-time student income for household members other than the Head, Spouse or Co-Head.                                                                                                                                                                                                                                                                                                                                                                                                                                       |

Under an earlier MTW activity all families were given an escrow account when they had increased earnings; escrow accounts are still available under the FSS program. VHA has concluded that building an asset is preferred to a temporary rent reduction and continues to not offer an EID to encourage participation in FSS and to eliminate the administrative burden of tracking various disallowance periods. |

Fixed-proration amounts for mixed-family households with ineligible-alien-status family members.  This was implemented at the onset of MTW in 1999 for program participants receiving fixed subsidies and subject to time limits; for all remaining families, this was planned in 2008 and implemented in 2009. B. Requiring Section 8 landlords to use the HUD-model lease. This was planned and implemented in 1999. C. Changing the definition of income to include "all income into the home of all MTW families." This was planned in 2008 and implemented in 2009. D. Elimination of UAP payments by the establishment of a \$0 minimum rent. This was planned in 2008 and implemented in 2009. E. Allowing qualified participants to select a flat- or fixed-medical deduction instead of going through the extensive medical-expense verification process. This was planned in 2008 and implemented in 2009. F. Converting all able-bodied families who entered our program before May 1999 to programs with fixed rents/subsidies and time limits. This was planned in 2008 and implemented in 2009. G. Fixed rents on the public-housing program for non-elderly or disabled families. This was planned and implemented in 1999. I. A five-year time limit on assistance for non-elderly or disabled families. This was planned and implemented in 1999. |

A HOP voucher is a fixed subsidy as opposed to a subsidy based on income. That includes senior/disabled households. Work-able households have a five year time limit on their assistance. Senior/disabled households do not have a time limit. HOP households would have annual reexaminations so THA can monitor the earned income and compare it to its other programs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

The flat rent schedule is based on the gross annual income of the household with no further deductions or allowances. Gross annual income is calculated pursuant to the HUD regulatory requirements. However, employment income for dependents is included in total household income if they are not also pursuing a training certification or educational degree. Current income exclusions as defined by HUD continue to apply.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

AHFC currently sets a market rent rate for its Public Housing units each year. This market rent is called the flat rent. If a family's income rises to a point where their required contribution would exceed the flat rent, AHFC offers the family the flat rent rate. With the implementation of time limits and subsidy steps, families will be allowed to keep any earnings over their required contribution. The need for a maximum rent cap is eliminated through the new proposed rent calculation method.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Work-able is defined as an adult under the age of 62 who is not disabled, a dependent, or a full-time caretaker for a disabled household member. The minimum income is \$9000 annually for each work-able family member.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

HUD regulations require AHFC to establish a minimum monthly rent for the Public Housing and Housing Choice Voucher programs that does not exceed \$50 per month. AHFC proposes the following minimum rents as part of its rent reform activity. 1. Classic Program family – the minimum rent will be \$25. This is lower than the current \$50 minimum rent. Because AHFC is limiting this population, and it is anticipated that these families will not have wage earners, staff felt that it was more reasonable to set a \$25 rate. AHFC does not require a waiver for this proposal. 2. Step Program family – the minimum rent will be \$100. Staff felt that this was a more reasonable minimum rent and prepared the family for the increase in their monthly rental obligation in year 2. |

When developing replacement Public Housing units VHA plans to set a minimum rent and/or a minimum income limit for applicants to the new project if doing so is required to make the project fiscally sound. The minimum rent would be higher than the one currently allowed under regulation. The minimum income would still be well below the very-low income limit at 50% of Area Median Income (AMI). The actual minimum rent and/or income limit will depend on the requirements of any new project.                                                                                                                                                                                                                                                                 |

The revenue generated from the increase at the site was approximately \$17,000 per month. The activity was terminated at the Pimlico site because the Housing Authority applied for and was accepted into the HUD Rental Assistance Demonstration (RAD) to revitalize the 206-unit site. The Pimlico site was completely vacant by August 2013 and renovation at the site began in March 2014. The LHA increased the minimum rent to \$150 across all housing programs (Section 8 & 9) excluding elderly and/or disabled households and households participating in HCV special partner programs during FV 2014.                                                                                                                                                                        |

The FCRHA proposed the following policy changes · Every adult family member will be expected to work if the member is not: o 62 years or older; o Disabled or handicapped according to the Social Security definition; o The only adult in the household and the primary caretaker of a disabled dependent; or o A full-time student (A student's exclusion from the working requirement will be capped after four years) · For initial implementation, adult family members that are able to work (not excluded by the above criteria) and are not currently working 30 hours per week, will have six months to gain employment (defined as 30 hours of work per week). · If after six months the member is not yet employed, they will be expected to work with The SkillSource Group, Inc. (SkillSource) for no more than an additional six months to gain employment or they will be expected to make the participate in the Training Futures or other similar job training program. · After this 12-month grace period, the minimum rent for the family will adjust to a rent based on a minimum wage income. · The new minimum rent will be set according to the number of non-exempt family members that are able to work. |

When a Stepped Subsidy household's gross rent burden is at or below 30% of their gross income, KH reduces HAP to \$0 for 6 months. If the household does not experience an unanticipated change in income within the \$0 HAP period, housing assistance is terminated. This change helped better align the metrics for measuring self-sufficiency with those used for hardship in the Safety Net program.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

This plan applies to households in which all adult members are either elderly or disabled and at least 90% of total household income comes from a fixed source such as social security, SSI, or pension. These households are subject to the following rent policy: • Complete recertification reviews once every 3 years instead of every year (biennial recertifications) with no "off-year" COLA-related rent adjustments unless interim is triggered • Eliminate elderly/disabled deduction; • Eliminate dependent deduction; • Eliminate medical deductions below \$2500 and implement bands • Implement 28.5% TTP to help offset the elimination in the elderly/disabled deduction and simplification of medical expense allowances. • Implement a tiered rent model based on adjusted income bands. • Implement local verification policies as outlined in Activity 7. • Implement minimum rent of \$25 (and therefore eliminate utility allowance reimbursements)                                                                                                                                                                                                                                                                     |

Under this plan work-able households are subject to the following rent policy: • Complete recertification reviews once every 2 years instead of every year (biennial recertifications) with no "off-year" COLA-related rent adjustments unless interim is triggered • Eliminate dependent deduction • Eliminate medical deductions below \$2500 and implement bands • Implement 28.5% TTP to help offset the dependent deduction • Implement a tiered rent model based on adjusted income bands. • Implement local verification policies as outlined in Activity 7. • Implement minimum rent of \$75 (and therefore eliminate utility allowance reimbursements)                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Total Tenant Payment: Total Tenant Payment (TTP) is determined on 27% of gross income with no allowable deductions. B. Minimum Rent: All subsidized households are responsible to pay the owner a minimum of \$25.00 for tenant rent. The higher of the TTP minus the utility allowance or \$25.00 is used to determine the tenant rent to the owner. This requirement is waived if the head of household is disabled and has a current Social Security application pending. C. Calculation of Asset Income: For households with total assets for which the face value is equal to or greater than \$5,000, asset income will be based on a 2% rate multiplied by the face value. Verification requirements are modified to allow as first level of acceptable verification the household provided documents such as quarterly or end of year statements. For assets under \$5,000 in face value, first acceptable verification level is self-certification of face value and income. The income will be excluded if total assets are under \$5,000. D. Verifications: LHA will utilize Enterprise Income Verification (EIV) as the first level of acceptable verification. E: Other: LHA will not implement regulatory provisions related to Earned Income Disregard income exclusions, imputed welfare income, and student earned income exclusions for adults 22 and older. Also, LHA will not implement regulatory provisions to include Special Needs Trusts as an asset or income even if the Special Needs Trust is making regular payments on the behalf of the beneficiary. |

The implementation of this activity made no discernable impact on the percentage of Bluegrass HOPE VI public housing families meeting the selfsufficiency requirement. Staff reported that many families simply waited for the sixmonth restriction to expire and then requested a rent reduction shortly thereafter.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

The implementation of this activity did not reduce the percentage of families requesting a rent reduction within 6 months of their effective move-in date. In fact, the percentage of families making such a request rose from 10% to 18% during FY2012 – FY2013. For those reasons, the LHA has decided to terminate this activity.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

Coupled with more access to FCRHA staff and other county and nonprofit self-sufficiency resources, the FCRHA believed this strategy will more effectively support self-sufficiency than HUD's current rent calculation. Additionally, the FCRHA's partnership with two centers at George Mason University – the Center for Regional Analysis and the Center for Social Science Research – will ensure the FCRHA can implement this study while maintaining the agency's financial solvency, serving the same number of families, and accurately evaluating the impact of the rent reform efforts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

Under the HCV program 33% of the household's monthly adjusted income would be deducted from the lesser of the gross rent or the payment standard to determine the Housing Assistance Payment (HAP). Under Public Housing the Utility Allowance (UA) would be subtracted from 33% of the household's monthly adjusted income to determine tenant rent. VHA will also allow households to have a family share of up to 50% of the family's adjusted monthly income at initial occupancy.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

For all elderly and disabled households, TTP will be based on a fixed percentage of the gross annual income that has been adjusted to account for deductions and allowances. If the percentage of annual income is more than the ceiling rent for Affordable Housing or contract rent for Housing Choice Voucher Program, then the lesser of the TTP or rent will be charged. |

The option of a flat rent rather than the income based one benefits higher income tenants, allowing them to use a resource that VHA believes should remain available for the lowest income applicants. VHA uses a ceiling rent and restricts tenants to the ceiling rent for one year. In this way the higher income tenant move on to other housing available in the community making the Public Housing unit with its deep subsidy available to new applicants.                                                                                                 |

Residents' incomes fall into \$2,500 ranges and rent is set at 30% of the low end of each range (minus a utility allowance).  Households with income in the lowest tier of the rent schedule are charged a minimum rent of \$50 for a twelve month period.                                                                                                                                                                                                                                               |

THA changed the escrow calculations to simplify the process and to provide clearer motivation and guidelines for participating families. THA has designed a savings calculation method under which families may qualify for one or more pay points. Pay points will be calculated and credited at the end of the FSS contract term and only if the family provides credible and verifiable documentation that show they qualify for each of the pay point credit types. |

Together with the existing requirement for Public Housing residents, this provides an opportunity for new experience, personal growth and self-enrichment for all recipients of subsidized housing through VHA who are able to, but not currently, working.                             |

Adding new services has allowed HANH to provide much needed support to a larger number of LIPH and Section 8 residents. Service referrals focus on remedial education, literacy classes, GED preparation, vocational and financial management, job skills/employability, etc. Further HANH has invested in Computer/Learning Labs which offer services that assist families in their move toward self-sufficiency. |

In partnership with agencies that provide social services, THA would make affordable housing available to households that would not be admitted to traditional public housing units. With this program, THA would sign a lease with partner agencies to use public housing units both for service-enriched transitional/short-term housing and for office space for community activities and service delivery. The ability to designate public housing units for specific purposes and populations allows units to target populations with specific service and housing needs and specific purposes, such as homeless teens and young adults. |

Even with a small budget, relatively simple curriculum, and small staff the kids who participating in Building Bridges flourish. Through the Use of Funds authority provided through MTW, Keene Housing created a 501(c) (3) non-profit organization in 2014 that offers wrap-around services to all children living in KH- and KH- affiliate owned and managed properties (all of whom are below 80% AMII), not just those living in units supported through KH's MTW PBV and HCV programs                                                                                                                                |

The program has successfully operated for a number of years with funding from a HUD Continuum of Care grant. Unfortunately that grant will no longer be available for this program so the VHA plans to utilize our ability under the Second Amendment to our MTW Agreement to take on continued funding of this valuable community resource. VHA plans to initially fund the program \$90,000 for one year. Subsequent funding will depend on program performance, VHA budget consideration and MTW status.                                                                                                                                             |

Up to 16 participants are provided a Housing Choice Voucher with a timelimit of five and a half years (66 months). In addition to the regular HCV program obligations, participants are required to actively participate in their approved self-reliance plans developed with their assigned case manager from a partnering agency; failure to do so results in expulsion from the program.                                                                                                                                                                  |

THA used the BMGF funding to support planning and development of the Scholar Incentive Program. The incentive program is aimed at improving academic achievement, graduation rates and college preparation and enrollment. The program identifies a series of pay points for engaging in specific activities tied to academic success, or achieving specific academic outcomes. These activities and achievements help students succeed in school, graduate with a 2.0 or higher grade point average, and take necessary college preparatory coursework. In turn, these achievements help qualify students for use of Washington State's College Bound Scholarship.                                                       |

The goal of this program is to connect current and wait-listed households with education, employment, and financial literacy services. Using MTW authority, Seattle Housing Authority may make it mandatory for work-able adults to participate in the pilot program in order to develop a self-sufficiency assessment and plan. In 2015 Seattle Housing Authority will pilot this approach with approximately 330 participants, currently targeted to include work-able adults entering Seattle Housing Authority's public housing and (MTW) voucher programs, and work-able adults in households requesting an interim recertification due to a decrease in income. The target population may evolve based on information received during planning or pilot implementation. |

Using certified trainers, RentWise teaches the knowledge and skills to be a successful renter and the issues that lead to problems for tenants. RentWise teaches participants how to secure and maintain safe and affordable rental housing. The six-module program is offered at no cost to participants and covers topics such as how to take care of and maintain the rental unit; how to improve communication and reduce conflict between tenants and landlords; how to improve the rental experience, manage money, and information on legal rights and responsibilities. The 12 hour curriculum uses lectures, workbooks, worksheets, demonstrations, and question & answer formats. |

Through an interlocal agreement, the program is operated by the Lincoln Area Agency on Aging (LAAA). This activity serves only households under 80% AMI and is related to the MTW objective of increasing housing choices for low-income families by providing a supportive services program which will allow residents to remain independent and prevent premature or unnecessary placement in assisted living facilities or nursing homes.                                                                                                                                                      |

VHA's method under MTW has two parts. The first part is a monthly deposit to a participants escrow account when they have increased earned income that results in a Total Tenant Payment (TTP) over the baseline set when they join FSS. However the baseline is a fixed amount set at \$450 for all new participants regardless of their income rather than the conventional practice of setting it at the TTP of their most recent eligibility reexamination prior to their admission to FSS. The second part is that VHA pays a specific amount to a participant's escrow account based on specific achievements. |

These new features will encourage participation and successful completion of the program: o Provide escrow funds for clients who would otherwise be ineligible for the escrow component of the FSS due to their level of earned income at the time they join the program; o Establish a discretionary fund to assist FSS participants with short term assistance in order to enable household members to participate in employment or educational activities (i.e., funding for car insurance or child care, etc.); o Set aside funding to reward families who choose to delay full-time employment in order to pursue education and/or training which will better prepare them to attain long-term self-sufficiency than immediate entry into the work force; o Establish goal-specific incentive payments to be awarded when a family attains an established goal (i.e., completion of a GED, successful completion of a semester of college courses, etc.). |

THA realizes it is very difficult when a households name comes to the top of a waitlist and the applicant does not have the resources to pay the security deposit. This program will ensure that families in need can afford to move into the unit when their name is called and will reduce the number of unit turndowns THA receives.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

EID PH clients often have issues once the EID period runs out because they have not learned how to effectively manage their money. Requiring participation in a savings program will help them think more about where their money is going and hopefully allow them to plan for the end of the EID period more effectively. This will only be applied to new EID participants.                                           |

Once housed at Passage Point, supportive services are available on-site to help residents rebuild their lives and successfully reunify with their children. Residents who have successfully completed the service program and regain custody of their children may submit a graduation packet for KCHA's Public Housing program. Yhese households will be given priority placement on the waitlist. |
